Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

SPECIAL PROVISONS AND COMMENTS

M. United States Federal Income Tax Considerations:	The Notes are not Specified Instruments for purposes of Section 871(m) of the U.S. Internal Revenue Code of 1986.
N. SFDR - ESG Disclosure:	The Issuer does neither promote environmental or social characteristics nor have sustainable investment as an objective. The investment decisions made for this Serie of Notes do not currently take into account Sustainability Risks (being understood as any environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment, and as defined in the SFDR).
O. Other Risks Disclosures Related and Specific to the Securitisation Transaction:	Investors in the Notes should be aware that by acquiring the Notes they are exposed to the following specific risks linked to the Securitisation Transaction and to the Underlying Asset: a) Geographic Risk: the amounts loaned to the Borrower will be used to further finance the operations of entities domiciled in Central and South America, in which the Borrower holds equity participations, as detailed in the Use of Funds section. Additional exposure to risks such as political instability, corruption and bureaucracy should be considered by Noteholders when investing, albeit indirectly, in Central and South America. b) Borrower Risk: the Borrower is a company with a limited history of borrowing and repaying debt. In addition, as the loan amount will be used to finance

the operation of further entities, it is important for Noteholders to note that these are also is a company with a limited history of borrowing and repaying debt.

c) Underlying Project Risk: The loan will purportedly be used by the Borrower to further finance entities belonging to the KrediYa 'group' of companies and brand. Whilst a business plan of the KrediYa 'group' has been provided, the Issuer gives no warranties to Noteholders that such plan is totally or even partially attainable.

d) Collateral Risk: Collateral offered by the Borrower is limited to a first lien mortgage on the underlying land. Whilst a proper valuation has been carried out on the underlying land, this does not mean in any ways that in a scenario where the loan is not getting repaid partially or fully, the Issuer will be able to recover the full notional amount on behalf of Noteholders. Furthermore, the lack of personal financial ability to support the Borrower from its shareholders is a risk Noteholders should consider before investing.

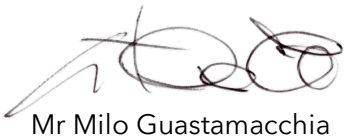

e) Litigation: Whilst the Issuer carried out a proper diligence in the structuring of the underlying loan under the advice of Luxembourg legal counsel, as the Borrower is based outside of Luxembourg, the risk, the costs and the time to recover the amount of the Loan in case of default of the Borrower should be considered taking into account the legal system of the Borrower's country and its legal system, rule of laws and lengthy legal procedures.

In addition, investors are recommended to read carefully the *Investor Suitability* and *Risk Factors* sections of the Base Memorandum.
