PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**"). Consequently, no key information document (the "**PRIIPs KID**") required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PROHIBITION OF SALES TO SWISS RETAIL INVESTORS – The Notes are not intended to be offered, sold, or otherwise made available to, and should not be offered, sold, or otherwise made available to, any retail investor in Switzerland. For these purposes, a retail investor means a person who is not a "**Professional Client**" within the meaning of the Swiss Financial Services Act ("**FinSA**"). Consequently, no key information document, either in the form of a "**Swiss KID**" with the format and contents outlined in Title 3, Chapter 2 of FinSA and in the Financial Services Ordinance ("**FinSO**"), or of a PRIIPs KID, formally recognised as equivalent to a Swiss KID as per Annex 10 of the FinSO, has been prepared for the offering or sale of the Notes or otherwise making them available to retail investors in Switzerland. Offering or selling the Notes, or otherwise making them available to any retail investor in Switzerland without such a Swiss KID or PRIIPs KID, may be unlawful under FinSA.

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA. Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

EEA MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

UK MiFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**UK MiFIR**"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (for the purposes of this paragraph, a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

SPECIAL PROVISONS AND COMMENTS

M. United States Federal Income Tax Considerations:	The Notes are not Specified Instruments for purposes of Section 871(m) of the U.S. Internal Revenue Code of 1986.
N. SFDR - ESG Disclosure:	The Issuer does neither promote environmental or social characteristics nor have sustainable investment as an objective. The investment decisions made for this Serie of Notes do not currently take into account Sustainability Risks (being understood as any environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment, and as defined in the SFDR).
O. Other Risks Disclosures Related and Specific to the Securitisation Transaction:	Investors in the Notes should be aware that by acquiring the Notes they are exposed to specific risks linked to the Securitisation Transaction as detailed in the Base Memorandum and to the specific risks related to the Fund, as further detailed in its private placement memorandum, and to following specific risks linked to the Unsecured Collateral: a) Venture Capital: by their very nature, venture capital investments such as the ones made by the Partnership may involve greater risks than are generally associated with investments in more established companies. Much of a company's success or failure depends on the management team. Venture capitalists ideally look for a company that's run by managers with a track record of success, either within the company they are giving the money to or in previous positions. Venture capitalists look for

companies with high growth potential. The risk factor lies in the word "potential". Market trends can impact the growth of a company once poised for success. While entrepreneurs seeking venture capital funding may have covered all the bases, they need to get their product or service on the market, every company still has barriers that must be overcome. Ultimately, venture capitalists must be able to see an end to the risk and enjoy their profits. The two most common ways of paying off angel investors are through an initial public offering and a buyout. Venture capitalists face the risks that the company managers won't be able to pull off the planned exit strategy. They may not produce enough revenue to offer the company to the public and sell shares. Smaller companies looking for a big buyer may not be successful enough to make the grade, leaving venture capitalists stuck.

b) Concentration Risk: To the extent that its portfolio is concentrated in investments or other assets in or from a particular country, market, industry, group of industries, sector or asset class, the Compartment may be adversely affected by the performance of those assets, maybe subject to increased price volatility and may be more susceptible to adverse economic, market, political or regulatory occurrences affecting that market, industry, group of industries, sector or asset class.

c) Layering of Fees: the Compartment shall invest in the Partnership and therefore will be subject to the fees payable to such schemes in respect so that the Noteholders shall be subject to a second layer of fees additional to the ones applicable to the Notes. Please see Use of Funds for details in regard to such fees applied by the Partnership.

d) Illiquidity of Investments: the Unsecured Collateral is illiquid and consequently it may not be possible to sell it at a price that reflects the Calculation Agent's assessment of the relevant fair value. The nature of the Unsecured Collateral also requires a long holding period prior to profitability. Consequently, disposals of the Unsecured Collateral may require a lengthy period.

The above-mentioned risk factors are not intended to be comprehensive and there may be other risk factors that relate to or may be associated with the investment into the Unsecured Assets. In addition, investors are recommended to read carefully the *Investor Suitability* and *Risk Factors* sections of the Base Memorandum.
