PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); or (ii) a customer within the meaning of Directive 2016/97/EU (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129, as amended (the "**Prospectus Regulation**"). Consequently, no key information document (the "**PRIIPs KID**") required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Consequently, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

EEA MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

UK MiFIR product governance / Professional investors and ECPs only target market – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**UK MiFIR**"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (for the purposes of this paragraph, a "**distributor**") should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

PROVISIONS RELATING TO ASSETS

35. Use of Funds:

The Issuer will use the proceed of the issuance of the Notes to invest into:

> A 5-year payment in kind loan (the "**Loan**") granted to The Healthiest Company Ltd, a private limited company organised and existing under the laws of the England and Wales, with registered address at 128 City Road, EC1V 2NX London, United Kingdom and registered with the UK Companies House under company no. 15738261 (the "**Borrower**"); and

> a cash reserve to allow the Issuer to meet the payment obligations of the Compartment during the tenor of the Notes

(all together, the "**Secured Collateral**").

Prospect investors and Noteholders may request free of charge to the Issuer a copy of the Loan agreement with the Borrower.

The Borrower is an investment company whose purpose is to acquire equity in operational and/or financial companies, whether domestic or foreign. The Borrower is a fully owned subsidiary of Truyoins Ltd, a private limited company existing under the laws of Israel, having its registered office at 4 Weizmann Street, Teno l Aviv, Israel and company registration no. 514851039 (the "**Parent Company**").

The Borrower is currently the registered shareholder of 50,000 (fifty thousand) shares (the "**Owned Shares**") of SaluberMD Inc., a corporation existing and registered in the State of Delaware (USA) under company no. 6040327, having its registered office at 1521 Concord Pike Suite 201, Wilmington, New Castle 19803 Delaware, which specializes in the development of

remote health care consultancy applications worldwide. In the absence of a public shareholders register of SaluberMD Inc., the ownership of the Owned Shares by the Borrower was confirmed in writing by the Chief Financial Officer of such USA entity.

SaluberMD Inc. has been valued by an independent auditor on 15 June 2023 at an average enterprise value of circa USD (US Dollars) 251,700,000 (two hundred fifty-one million seven hundred thousand). Considering a total of 1,226,902 (one million two hundred twenty-six thousand nine hundred two) outstanding shares issued by SaluberMD Inc., as also confirmed in writing by the Chief Financial Officer of SaluberMD Inc. in absence of a public shareholders register, the average valuation price per share has therefore been estimated at circa USD 205.15 (two hundred and five and fifteen cents) (the "**Last Valuation Price**").

At any time throughout its 5-year tenor, the Loan shall trigger a cash repayment to the Issuer of its principal (the "**Loan Principal**") plus interest (the "**Yield**") only upon the occurrence of either a public offering by SaluberMD Inc. of its shares on a recognised stock exchange (an "**IPO**"), or of a sale, merger, acquisition, reorganisation and other similar event (together, a "**Liquidity Event**", whose full definition is present in the Loan agreement) and following the expiration of any applicable IPO lock-up period. In such instance, the Yield would be calculated based on the following formula:

$$Yield = (\ Liquidable\ SaluberMD\ Shares \times Liquidity\ Price\ ) - Loan\ Principal$$

where:

$$Liquidable\ SaluberMD\ Shares = \frac{Loan\ Principal}{Discounted\ Price}$$

Liquidity Price = the price at which the Borrower will be able to sell, on the applicable stock exchange where the SaluberMD Inc. shares are listed and traded and following any applicable IPO lock-up period, a number of SaluberMD Inc. shares equal to the Liquidable SaluberMD Shares. It is understood that the Borrower will consult the Issuer, acting as lender in regard to the timing for the sale of the SaluberMD Inc. shares in question and to agree a desired Liquidity Price for the trade to be executed at.

Discounted Price = a price per share of USD 190, which represents a discount on the Last Valuation Price. Such

discount on the price allows for a higher number of Liquidable SaluberMD Shares to be potentially disposed by the Borrower in case of Liquidity Event, and therefore a higher Yield, when compared with basing the calculation of the Liquidable SaluberMD Shares on the Last Valuation Price instead.

To guarantee the liquidity required for the repayment of the Loan Principal and of the Yield in case of a Liquidity Event, the Borrower undertakes as part of the Loan agreement either to sell and dispose of the Liquidable SaluberMD Shares out of the Owned Shares, or to arrange for the Parent Company to sell and dispose of any additional investment it will make by virtue of the Loan being granted to the Borrower and from the Borrower to the Parent Company, as defined below, and in doing so to cover any repayment commitment falling on the Borrower. In both cases the aggregate sale value shall not be lower than the Loan Principal amount plus the Yield.

In case no Liquidity Event takes place during the Loan's 5-year tenor, at maturity of the Loan the Loan Principal shall not be paid back by the Borrower and no Yield would apply. Instead, the Borrower will deliver, free-of-payment, all the Owned Shares to the Issuer. If the Borrower does not deliver to the Issuer the Owned Shares at Loan maturity, the Issuer shall trigger the enforcement of the Security Interest, as defined below.

It is to be noted that the amount to be received by the Borrower under the Loan agreement will be used by the Borrower to grant in turn a payment in kind loan to its Parent Company for the acquisition by the latter of additional shares of SaluberMD Inc., or any other equity participations in companies whose business is related to the strategic growth of SaluberMD Inc.. The agreed price for the purchase of such additional SaluberMD Inc. shares will be negotiated by the Parent Company with SaluberMD Inc. and may be different from the Last Valuation Price.

36. Security Interest:

A debenture entered into under UK law between the Issuer and the Borrower creating both a fixed security on the Owned Shares and a floating charge on (a) all of the Borrower's rights, title and interest from time to time in and to all the undertaking and assets of the Borrower whatsoever, wherever situated, whether movable, immovable, present or future, including plant and machinery, the property, and the shares, and all the related rights, and (b) all the goodwill and uncalled

capital for the time being of the Borrower and all the related rights.

It is to be noted that, as at the Last Valuation Price, the Owned Shares have an estimated value of circa USD 10,257,543 (ten million two hundred and fifty-seven thousand five hundred and forty-three US dollars). However, the Last Valuation Price may, and is likely to, be different from the price at which the Issuer, or Noteholders, may realize the sale of the SaluberMD Inc. shares.

SPECIAL PROVISONS AND COMMENTS

M. United States Federal Income Tax Considerations:	The Notes are not Specified Instruments for purposes of Section 871(m) of the U.S. Internal Revenue Code of 1986.
N. SFDR - ESG Disclosure:	The Issuer does neither promote environmental or social characteristics nor have sustainable investment as an objective. The investment decisions made for this Serie of Notes do not currently take into account Sustainability Risks (being understood as any environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment, and as defined in the SFDR).
O. Other Risks Disclosures Related and Specific to the Securitisation Transaction:	Investors in the Notes should be aware that by acquiring the Notes they are exposed to specific risks linked to the Securitisation Transaction as detailed in the Base Memorandum and to the specific risks related to the business, management and operation of both the Borrower and SaluberMD Inc, and to following specific risks linked to the Secured Collateral: a) Concentration Risk: To the extent that its portfolio is concentrated in a single investment i.e. the Loan, and ultimately the business and operation of SaluberMD Inc, the Compartment may be affected by adverse economic, market, political or regulatory changes occurring in or from a particular country i.e. USA, market, industry, group of industries, sector or asset class. b) Venture Capital: By their very nature, venture capital investments such as the ones made by the

Parent Company in SaluberMD Inc are risky. Much of a company's success or failure depends on the management team. Venture capitalists ideally look for a company that's run by managers with a track record of success, either within the company they are giving the money to or in previous positions. Venture capitalists look for companies with high growth potential. The risk factor lies in the word "potential." Market trends can impact the growth of a company once poised for success. While entrepreneurs seeking venture capital funding may have covered all the bases, they need to get their product or service on the market, every company still has barriers that must be overcome. Ultimately, venture capitalists must be able to see an end to the risk and enjoy their profits. The two most common ways of paying off angel investors are through an initial public offering and a buyout. Venture capitalists face the risks that the company managers won't be able to pull off the planned exit strategy. They may not produce enough revenue to offer the company to the public and sell shares. Smaller companies looking for a big buyer may not be successful enough to make the grade, leaving venture capitalists stuck.

In addition, investors are recommended to read carefully the *Investor Suitability* and *Risk Factors* sections of the Base Memorandum.
